

Oracle Database 12c: New Features for Administrators

Duration: 5 Days

What you will learn

This Oracle Database 12c: New Features for Administrators training teaches you about the new and enhanced features of Oracle Database 12c. Expert instructors will teach you how these features increase security, manageability and performance.

Corporate Training Programs

- ✓ Interact with expert trainers
- ✓ Enhance your technical skills
- ✓ Expertise and skills in advance IT technologies

Audience
Administrator
Database Administrators
System Administrator

Benefits to You

Ensure fast, reliable, secure and easy to manage performance. Optimize database workloads, lower IT costs and deliver a higher quality of service by enabling consolidation onto database clouds.

Multitenant Architecture

After a brief review of the Oracle Enterprise Manager Cloud Control 12c and Enterprise Manager Database Express, you'll learn the new concept of multitenant architecture, its benefits and usage. This includes tasks like creating, managing, monitoring, backing up and recovering multitenant container database and pluggable databases.

Hands-on Practices and Demonstrations

Hands-on practices and available demonstrations help you learn how to use these new or enhanced features of Oracle Database 12c. You'll explore using Oracle Enterprise Manager Cloud Control and other tools like Oracle Enterprise

Course Topics
